

What is NANP?

NATIONAL
ANIMAL NUTRITION
PROGRAM

Science based. Data driven. Future focused.

AnimalNutrition.org

What does NANP do?

The NANP **provides research-based data** on animal nutrient needs, feed ingredients, feeding strategies, and animal performance as well as software, training tools, and **educational materials** to support research.

What can NANP provide?

Nutrition is one of the most important parts of animal agriculture. Good nutrition helps **ensure animal development, health, and welfare**. Nutrition also influences the amount of harmful emissions and waste that animals produce.

Why does NANP matter?

With easy access to animal nutrition data, nutritionists, researchers, farmers, and policymakers can make informed decisions that promote animal performance and welfare, boost producer profitability and competitiveness, and **reduce impacts on the environment**.

Who is involved?

Led by more than **30 scientists from over 20 institutions**, the NANP has diverse expertise on animal species and production types and environments. The team works closely with other research, academic, government, and **industry partners worldwide**.
